

**CELEBRATING THE FAMILY IN FAMILY MEDICINE: A MODEL
TRAINING PROGRAM FOR MEDICAL STUDENTS**

Melton Strozier, Ph.D., Marie Dent Ph.D., Lee Bowen, Ph.D., Stuart Tedders, Ph.D.,
Derek Woessner, MS

An interdisciplinary faculty developed a model program to help medical students understand how illness influences families, and specific skills for assessing those families. This seminar addresses integrating family assessment into the curriculum of the medical school, a six-hour tutorial format of preceptors, and medical student feedback.
