DEDICATION

The Columbus campus class of 2018 would like to dedicate our yearbook to our surgery clerkship director, Dr. James Majors.

Dr. Majors exemplifies what it means to be an excellent teaching physician and clerkship director. During third year, he sought students nervous about their surgery clerkship and personally guided them through the first days of the rotation, putting them at ease. His understanding and calm demeanor in the operating room made each student feel capable in their own performance without the fear of scrutiny. Whether it was the first case in the morning or an emergent case in the middle of the night, he ensured that his students would have a memorable and meaningful educational experience.

Dr. Majors is held in such high esteem by the class that many of us who did not choose to pursue a surgical residency still asked for his guidance throughout fourth year. It is no surprise that Dr. Majors frequently wins accolades from students every year. While we have only spent a brief amount of time learning from Dr. Majors, he has left an indelible impression on us by showing what it means to be an exemplary attending physician.
